PROFESSIONAL SUMMARY

MERN Stack Developer with 9+ months of professional experience at Eethal Nad IT Solutions (since Dec 2025), building healthcare, physiotherapy, psychologist session management, and CRM web applications with React.js, Node.js, Express.js, and MongoDB. Also builds with Next.js, TypeScript, and PostgreSQL. Develops REST APIs, responsive user interfaces, and database operations across the full stack. Delivers CRM platforms with role-based access control, AI-assisted lead scoring and automation, and integrations including WATI, Razorpay, and Microsoft Teams, with Docker-based environments.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript
Frontend: React.js, Next.js, HTML, CSS, Bootstrap, Vue.js
Backend: Node.js, Express.js, REST APIs, Socket.io, SMTP, IMAP
Database: MongoDB, PostgreSQL
Tools: Git, GitHub, Docker, VS Code
Practices: Full-Stack Development, Role-Based Access Control (RBAC), Third-Party API Integration (WATI, Razorpay, Microsoft Teams), Responsive Web Design, CRUD Operations, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

MERN Stack Developer Dec 2025 – Present (9+ months)
Eethal Nad IT Solutions

- Develop full-stack healthcare and CRM web applications using MongoDB, Express.js, React.js, and Node.js (MERN Stack).
- Build responsive React.js interfaces and integrate them with Node.js and Express.js REST APIs.
- Perform MongoDB database operations, debugging, and performance optimization across projects.
- Take part in client communication and requirement gathering, coordinating development work with the team.
- Use Docker for application environments and debug issues on live systems used by real users.

Selected Projects

Physio Management System | React.js, Node.js, Express.js, MongoDB | 4 months

- Developed a customized physiotherapy management system to streamline operations and patient management.
- Built patient, lead, session, payroll, and leave management modules, along with records and appointment management.
- Designed responsive, user-friendly interfaces to support efficient workflow management.
- Integrated frontend and backend components; improved usability through debugging and performance optimization.

Psychologist Session Management & CRM | Next.js, TypeScript, PostgreSQL, Docker

- Developed session management features covering scheduling, session notes, session status, rescheduling, and reminders.
- Built CRM modules for lead tracking, follow-ups, automatic lead creation, AI lead scoring, affordability assessment, and call metrics.
- Implemented multi-role workflows for admin, agent, psychologist, BDM, and lead users.
- Integrated WATI (WhatsApp), email (IMAP and SMTP), Microsoft Teams, and Razorpay payments.
- Used Docker for the application environment and fixed bugs on the live application used by real users.

Healthcare CRM | MongoDB, Express.js, React.js, Node.js

- Developed lead management features to maintain and manage leads in a healthcare CRM, with automated tasks for routine lead handling.
- Implemented AI-assisted features: AI suggestions, AI auto-creation, and AI analysis.
- Built role-based access control (RBAC) for admin, receptionist, doctor, and management users.
- Built dashboards for CRM data and lead activity.
- Used Docker for the application environment and fixed bugs on the live application used by real users.

Frontend Development Intern Mar 2025 – Jun 2025
Favor Web Development

- Developed responsive web interfaces using React.js and JavaScript.
- Built reusable React.js components and integrated REST APIs.
- Collaborated on interface enhancements and frontend optimization.

ADDITIONAL PROJECTS

Real-Time Chat Application | Vue.js, Node.js, Socket.io | College project

- Built a real-time messaging app with Socket.io for live chat.

To-Do List Application | HTML, CSS, JavaScript, Bootstrap

- Built a responsive task manager with create, update, and delete features.

EDUCATION

Bachelor of Computer Science | Noble College of Arts and Science for Women 2022 – 2025
CGPA: 7.67

HSC | S.B.K. Girls' Higher Secondary School | 68.667% 2021 – 2022

SSLC | S.B.K. Girls' Higher Secondary School | 73.8% 2019 – 2020

COURSES

Docker | Completed
Node.js (Udemy) | In progress
